

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

# A REPORT

OF THE

## RECORD COMMISSIONERS.

---

The Twenty-third Report of the Record Commissioners continues the Proceedings of the Boston Selectmen from January, 1769, to April 19, 1775. During this period, the entries refer almost exclusively to the same matter as in more peaceful times, only one or two paragraphs dealing with the presence of British troops. For expressions of the feeling of the citizens, reference must be made to the record of the Town Meetings, printed in our eighteenth report.

---

The Record Commissioners' Department has been consolidated with the Registry Department during the past year, but provision has been made for the completion of the publication of the Town records. A volume of Marriages between 1700 and 1800 is in press, under the supervision of William S. Appleton, Esq., and other volumes will be printed as fast as possible.

Voted unanimously. that the following Address be presented his  
Excellency Francis Bernard Esq<sup>r</sup>.

May it please your Excellency

At a Time when artful & mischievous Men have so far prevail'd as to foment & spread divisions in the British [176.] Empire: When mutual confidence which had so long subsisted with mutual advantage between the Subjects in Britain & America is in a great measure broken: When Means are at length found even to excite the resentment of the Mother State against the Colonies: & they are publicly chargd with being in a state of disobedience to Law, and ready to resist the constitutional authority of the Nation; The Selectmen of this Metropolis cannot be the unconcerned or silent spectators of the Calamaties, which in consequence thereof have already fallen upon its inhabitants. — To behold this Town surrounded with Ships of War; and military Troops even in a time of peace; quarterd in its very Bowels: Exercising a Discipline with all the severity which is used in a Garrison, and in a state of actual War, is truly alarming to a free People. And what still hightens the misfortune is, that our gracious Sovereign & his Ministers have formed such an Idea of the present state of the Town, as to induce a necessity of this naval and military force, for the aid of the civil Magistrate in the preservation of its peace & good order —

Your Excellency can witness for the Town that no such aid is necessary: Loyalty to the Sovereign; and an inflexible Zeal for the support of his Majestys Authority and the happy Constitution is its Just character: And we may appeal to the impartial World, that Peace and order were better maintained in the Town, before it was ever rumoured that his Majestys Troops were to be quarterd among us, then they have been since. Such a Measure then we are persuaded would never have been ordered by the Wisdom of the British Administration, had not the necessity of it been drawn from the Representations of some of his Majestys Servants in this Province — Your Excellency will allow us to express our Opinion; and the behavior of some of its Individual Inhabitants have been greatly misapprehended by his Majestys Ministers. We therefore in duty to the Town we have the honor to serve, respectfully wait on your Excell<sup>y</sup>. and pray that you would be pleased to communicate to us such Representations of *facts only*, as you Judged proper to make since the commencement of the last Year. And as there is a prevailing Report that Depositions are & have been taken *ex parte* to the prejudice of the Town & particular persons, may we not assure ourselves, that your Excell<sup>y</sup>. will in Justice cause to be laid before us such other Representations as may have come to your knowledge, that the Town knowing clearly & pre-

cisely what has been charged against it, may have an opportunity of vindicating it self. —

Boston Ss: At a Meeting of the Selectmen Feb 20. 1769 Present Henshaw, Jackson, Ruddock, Hancock, Rowe, Pemberton,

The Chairman Coll<sup>o</sup>. Henshaw, laid before the Selectmen the following Reply made by the Governor to the Address of the Selectmen, which he received from him on Saturday Evening —

Gentlemen

The Propriety of your Addressing me upon publick Business I shall not now dispute; but in my Answer I shall confine myself to such Parts of your Address as relate to you as the Selectmen or to the Town as a Body —

I have no Reason to think that the public Transactions of this Town have been misapprehended by his Majesty or his Ministers, or that their Opinions thereon are founded upon any other Accounts, than those published by the Town itself —

If therefore you can vindicate your selves from such Charges as may arise from your own Publications, you will in my Opinion have nothing further to apprehend —

Boston Ss: At a Meeting of the Selectmen, Feb<sup>y</sup>. 22, 1769. Present, Henshaw, Jackson, Ruddock, Hancock, Pemberton, Inches.

Voted, unanimously that the following Address be presented his Excellency Governor Bernard.

May it please your Excellency

The Selectmen of the Town of Boston, beg leave once more, to wait on your Excellency, hoping you will excuse this further trouble, as it is upon a matter of the greatest importance to the Town.

In your Answer to our late humble Request your Excellency was pleased to say, that you have no Reason to think that the publick Transactions of this Town have been misapprehended by his Majesty or his Ministers; or that their Opinions thereon are founded upon any other Accounts than those published by the Town itself. "And that if we can vindicate ourselves from such Charges as may arise from our own Publications, we shall in your Opinion have nothing further to apprehend."

As the Town has published nothing but its own transactions in Town Meeting legally assembled, it gives us the greatest Pleasure to find your Excellency in your reply to us, thus vindicating it from any Just cause of apprehension from the General Character of its Inhabitants, considered as Individuals; If therefore the Town has suffered on Account of the Disorders which happened on the 18<sup>th</sup> March or the 10<sup>th</sup> of June last, by Persons unknown, (the only Disorders that have taken place in this Town within the Year past) we take your Excellencys Declaration to us, to be a full Testimony, that in your Opinion, it must be in consequence of some partial or false Representations of those Disorders to his Majestys Ministers. And we rejoice to find your Excellencys Sentiments as expressed in your Reply, so far harmonizing with those of his [2.] Majestys Council not long published. We have in this Case the most authentick Evidence that can possibly be had, the Joint Testimony of the Governor and Council of the Province, that the Town has not been *in a State of Opposition to Order and Government*, and such as *required a Military Force to support civil Authority*.

With Regard to the public Transactions of the Town, when legally assembled, from which alone in your Excellencys declared

Opinion, the Town could have any thing to apprehend; we beg leave to say, that after the most careful retrospect, and the best inquiry we could make into the nature and Import of those Transactions, we are utterly at a loss in what view they can appear to have militated with any Law, or the British Constitution of Government. And we entreat your Excellency would condescend, to point out to us, in what particular respect they either have been, or may be view'd in such a Light, that either the Town may be made sensible of the illegality of its proceedings, or, that upon the most critical Examination its Innocence may appear in a still clearer Light.

Your Excellencys high Station in the Province; and the regard you have professed for the Interest of the Town, we humbly apprehend, must give *Propriety* to this as well as our former Address.

Boston Ss: At a Meeting of the Selectmen, Feb<sup>r</sup>. 24, 1769. A.M. Present, Henshaw, Jackson, Hancock, Pemberton, Inches.

The Selectmen received from the Governor by the Chairman Coll<sup>o</sup>. Henshaw, the following reply to the foregoing address.

Gentlemen

As In my answer to your former Address, I confined myself to you as Selectmen and the Town as a Body, I did not mean to refer to the disorder on the 18<sup>t</sup>. of March or of the 10<sup>t</sup>. of June, but to the transactions in the Town Meetings & the proceedings of the Selectmen in consequence thereof

FRA. BERNARD.

Complaint having been made to us by a Considerable Number of the Inhabitants living at the South Part of the Town, that they are continually disturbed and abused by the Kings Soldiers at the Guard House near the Entrance Gates at the South End, and that every Night Thefts and Robberies are committed by them. We have upon Consideration of said Complaint and Information, thought it for the quiet & safety of the Inhabitants that a Watch should be placed near said Guard House and have accordingly appointed one consisting of Four Persons exclusive of yourself, Viz<sup>t</sup>. Mess<sup>rs</sup>. Richard Tucker, David Farrar, Aaron Hartshorn, Isaac Harper, — of this Watch you are appointed the Constable, And our Orders to you therefore are, That you repair with the above named Persons every Night to the House we have caused to be erected for your accommodation on the Towns Land almost opposite to M<sup>r</sup>. Robert Pierpoints House, and that you use your utmost and most prudent Endeavours to prevent a Repetition of the Abuses Robberies & Disturbances complained off, and also to come at the knowledge of those Persons who have, or may be guilty of such offences, by taking and securing some of the offenders if possible, or by observing them so narrowly, as that you may be able to evidence against them when called upon as Witnesses. We depend upon your Care and Fidelity, that the People of your Watch are kept to your Duty, that they may answer the end of Watchmen, especially by contributing to the quiet and safety of those Inhabitants who have more immediately procured this appointment. We refer you to our former Orders given you as Constable of the other South Watch [59.] and, to the Laws enacted for the regulation of the Town Watch, and doubt not of your conforming yourself thereto.

To His Excellency Thomas Hutchinson Esq. Governor in Chief, the Hon<sup>ble</sup>. the Council & House of Representatives in General Court Assembled.

The Petition of the Freeholders & other Inhabitants of the Town of Boston in Town Meeting assembled, March 19. 1771.  
Humbly sheweth

That considering the many & fatal accidents that happen by the explosion of Magazines of powder in large & populous Citys your Petitioners apprehend their lives and propertys to be very insecure from the powder house being situate where it now is, more especially as they are informed it has at times contained several thousands casks of gun powder.

That thay are apprehensive not only on account of what the Town may suffer if so terrible a Catastrophy should be realized but for the Community in general as near the whole quantity of powder in the Province would be thereby lost and perhaps at a time when we are upon the eve of a war.

Your Petitioners would therefore intreat that the Hon<sup>ble</sup>. Court will be pleased to take this petition into their wise consideration, & order the removal of the powder of that magazine to a place or places of greater safety & as in duty bound &c.

By Order of the Town

come to this Town, & continued here to the trouble of his Brother the Rev<sup>d</sup>. M<sup>r</sup>. Bowen and the uneasiness and distress of the Inhabitants — We have not taken with respect to him the legal and usual method to remove Strangers, as we compassionate his Circumstances; and this is the second time we have contrived to send him home in a more private and easy manner — It will therefore highly Oblige us if you will be pleased upon his return to take some effectual method to prevent any future Excursions during his present disordered state of mind.

By Order of the Selectmen

WILLIAM COOPER Town Clerk

To the Gentlemen the Selectmen of Woodstock —

The following Advertisement was published in the several News Papers p. order of the Selectmen —

Tree untill they have parted with one half of the Trees mentioned in the respective Certificates." Agreeable to the foregoing Advertisement the Selectmen after examining & comparing the Certificates which have been transmitted to them, have Adjudged the first Premium to M<sup>r</sup>. Lohammi Baldwin of Wobourn; the second Premium to the Rev<sup>d</sup>. M<sup>r</sup>. Jason Haven of Dedham; the third to M<sup>r</sup>. John Hay of Wobourn and the fourth to m<sup>r</sup>. O'Clock Afternoon, to receive their several Obligations and pay their respective Premiums, agreeable to the desire, & engagement of the Gentleman who has thus generously excited the attention of the Publick to an article of Produce as natural to our Soil as it will be profitable to the Farmer; & which it is hoped will be so encouraged, as in a few years to afford Sustenance for such a number of Industrious Insects, as will make the Article of Raw Silk no inconsiderable Branch of Export from the Province.

By Order of the Selectmen

WILLIAM COOPER Town Clerk

✎ Besides the Trees raised by the Persons above named, many thousands have been raised by those who were not entitled to the Bounty, the Trees not being of the Age prescribed in the advertisement. [177.] Altho' now fit to be transplanted; and if the Farmers in the neighbouring Towns are made acquainted a considerable number would doubtless meet a quick sale — The Mulberry Trees as Dr. Eliot in his essays upon Field Husbandry observes is of the quickest growth; is durable as Red Cedar, and may be used for Ship Timber, Window Frames, Gate Posts &c. and is very fit for Chests of Draws, Desks Tables & other Joiners Ware. If these Trees are principally intended to produce Food for the Silk Worm, it is best they should be planted in hedge Rows, as the Leaves may then be gathered by Women and Children.

Nowells Schooner from Newbury who left the vessel without leave from the Selectmen, while she lay at Rainsfords Island — appeared, and delivered Letters from the Selectmen of Newbury & Tristram Dalton Esqrs. & from what was wrote & an enquiry into the Circumstances of the Vessel when he left it, — apprehending the Pilot to be an honest Man, as well as poor & that there will be no danger in his return to Newbury, the Selectmen concluded not to send him to Rainsfords Island, but to let him go back to Newbury, after he was well reprimanded & admonished for his Offence against the Laws, & the following Letter was delivered him for the Selectmen of Newbury, Viz<sup>t</sup>.

[18.]

Boston October 16. 1773.

Gentlemen

We have received yours p. Joseph Coffin & have inquired of Cap<sup>t</sup>. Nowell the situation of his Vessel when the Pilot came on board and from his account of the matter we are of Opinion, there can be no danger to the Inhabitants from the Pilots leaving the Vessel; he has indeed been guilty of breaking a Law, which guards the health & lives of the People; and was it not

in compassion to his Family, we should have directed, that he might be prosecuted for his great offence notwithstanding his pleas, that it was done thro' ignorance of the Law, — or at least have ordered him to Rainsfords Island again; but from the character given him, we have permitted him to return to Newbury Port, he having assured us, that in case he should perceive any Symptoms of the Small Pox, as he may possibly have received the Infection, he will immediately acquaint you there with that he may be removed to such a place as you may direct to prevent a communication of the Distemper.

Jonathan Clark then said that he found that his Fellowtownsmen had entertained a very unfavourable opinion of him on account of the Tea, that was reported to be consigned to him & Comp<sup>y</sup>. from the India Company in London, he declared that the Consignment was not of his seeking that he was entirely clear of the matter, and that it was very disagreeable to him — that in order to restore tranquillity to the Town, and that he might stand in a favourable light with the Town, he was willing to do everything that could in Justice be required of him; The Selectmen then informed him that from what they could collect from the People abroad, nothing would satisfy the Inhabitants but reshipping of the Tea to London. he objected the impracticability of this measure. The Select men held up to him that nothing short of that would be satisfactory, and likewise the dreadful consequences that must in all probability insue on its not being done. After much discoursing with the Selectmen on the subject he absolutely promised this; that when the Tea arrived nothing underhanded should be done, that the Tea should not be taken out off the Vessel or disposed of in any shape at all; that so soon as the Vessel or Vessels should arrive with the Tea he would immediately hand in proposals to the Selectmen to lay before the Town, that he could not now do it as he did not know what particular Orders he might receive from the Shippers which particular Orders they had wrote him would accompany the Tea.

*Sir*

Sometime past the Town Clerk by Orders of the Selectmen wrote the Persons that owed money on Bond to the Estate of M<sup>r</sup>. Brooker that as that Interest was by her Will committed to the care of the Selectmen for the benefit of the Poor they could not consistent with their duty let any of the Moneys lay in any ones hands without Real Security. You Sir was informed of this by a Letter from the Town Clerk & in an interview that you afterwards had with some of the Selectmen you said that you should have sufficient to discharge the Obligation which we were in hopes would have been done ere this. We are not solicitous to have the Bond taken up if we can have Real Security given for it, but must insist that the Money be forthwith paid or we shall certainly put the Bond in suit at April Court. It will be irksome for us to take such a step neither should we do it (as the spirit of the times is) on any consideration but from a motive of faithfulness to our trust — we are

Boston July 2<sup>d</sup>. 1774

Gentlemen

We received by Mr. Howard your very kind obliging and Sympathetick Letter accompanying a very generous & acceptable donation for the Poor of the Town of Boston. We cannot but with the utmost feelings of gratitude applaud the noble spirit that appears in the respectable Town of Windham on this occasion, a spirit truly characteristick of New England men descended from Ancestors the most worthy of imitation & applause. That our situation in this Town is truly deplorable needs no comment; that for a single supposed trespass our whole Foreign Trade to be annihilated & thousands of persons that depended on their dayly labour for their Bread to be reduced to a state of extreme want; and superadded to all this to have a military force introduced among us to insult us in our distress, is a measure that must mark the present administration. But amidst [50.] Our sufferings it is a great alleviation that all our Sister Colonies have adopted these sufferings as their own, and that from them we may expect all that relief & assistance that such an opinion must inspire but to none are we more obliged than to the Colony of Connecticut & the several Towns therein that have distinguished themselves on this occasion. May the blessing of him that is ready to perish come upon all those that with a liberal hand are dealing out their bounty to the distressed Poor of this devoted Town who not withstanding what they already suffer are ready & willing to suffer

yet more rather than give up their Birth right Priviledges, permit us Gentlemen in behalf of this Town to return you our sincere thanks for this token of your good will & to subscribe ourselves.

Your Brethren & most Hum. Serv<sup>ts</sup>.

In consequence of a Billet received Yesterday [54.] From Governor Gage, all the Selectmen saving Coll<sup>o</sup>. Hancock waited on him this Day between Twelve and one O'Clock at the Province House, being introduced by his Aid de Camp. The Governor upon coming into the room where we were standing, without any ceremony of any kind, said, the reason of his sending for us, were contained in a Paper he had in his hand which he would read to us, the contents were, — “that he had received from England the two acts of Parliament lately passed in which was inserted a Clause for bidding the calling Town Meetings without special license from the Governor:” after he had read this Paper he produced the Act of Parliament and turned to the Clause, and gave it to the Selectmen to read — after the same was read, the

Governor observed, "that as he was soon to go out of Town he chose to give us this Information that if a Town Meeting should be wanted, upon our application to him if he should Judge it expedient he would allow one to be called" — we told him that at present we had no need of calling a Town Meeting for we had two now alive by Adjournment, one of them to be some time this month, the other to be held in October. On this information he looked serious and said "he must think upon that," adding "that by thus doing we might keep the Meetings alive for ten years," we told him the Adjournment of those Meetings was not the Act of the Selectmen but of the Town, and that we were Officers, chosen by the Town to manage the prudentials of it, who had our duty laid down in the Law of Province, — that we had always endeavoured to do our duty conformable to the Laws and hoped we always should — on our so saying he said, & we thought with some degree of temper, "that he was determined to enforce those Acts of Parliament, and that if any bad consequences ensued, we must be answerable and not he."

The Select men made the following application to the Governor which was read to him by the Town Clerk, viz<sup>t</sup>.

May it please your Excellency

The Selectmen of the Town of Boston now wait on your Excellency to acquaint you, that the Inhabitants of the Town are much alarmed to find that your Excellency has ordered the breaking up the Ground near the Fortification on the Neck, and the Selectmen would beg of your Excell<sup>y</sup>. to explain your design in this extraordinary Movement that they may thereby have it in their power to quiet the Minds of the People.

To the above the Governor reply'd to the following purpose—  
[58.] That he had no intention of stoping up the Avenue to the Town or of obstructing the Inhabitants or any of the Country People, coming or going out of the Town as usual, that he had taken his measures and should pursue them; and that he was determined to protect his Majestys Subjects & his Majestys Troops in this Town, and that he had no intuition of any thing hostile against the Inhabitants of the Town.

The following was handed to the Governor by the Town Clerk, that he might object if he had been taken up wrong. but he having approved of the reply, the Clerk was ordered to publish the same in the publick Prints.

The Selectmen agreed upon the following address to Governor Gage, which was read & presented to him by the Town Clerk on Fryday last. the Select men being present — Viz<sup>t</sup>.

May it please your Excellency

The Selectmen of Boston at the earnest desire of a num-

ber of Gentlemen of the Town and Country, again wait on your Excellency to acquaint you that since our late Application the apprehensions of the People not only of this but of the neighbouring Towns, are greatly increased by observing the design of erecting a Fortress at the entrance of the Town, and of reducing this Metropolis in other respects to the state [59.] Of a Garrison — this with complaints lately made of abuse from some of the Guards posted in that quarter in assaulting and forceably detaining several Persons who were peaceably passing in and out of the Town, may discourage the market People from coming in with their Provisions as usual, and oblige the Inhabitants to abandon the Town. This event we greatly deprecate as it will produce miseries which may hurry the Province into Acts of Desperation.

We should therefore think ourselves happy, if we could satisfy the People that your Excellency would suspend your present design and not add to the distresses of the Inhabitants occasioned by the Port Bill, that of Garrisoning the Town.

JOHN SCOLLAY Chairman of the Selectmen.

To which his Excellency was pleased to return the following answer.

Gentlemen,

When you lately applied to me respecting my ordering some Cannon to be placed at the entrance of this Town, which you term the erecting a Fortress; I so fully expressed my Sentiments, that I thought you was satisfied the People had nothing to fear from that measure, as no use would be made thereof, unless their hostile Proceedings should make it necessary, but as you have this Day acquainted me, that their fears are rather increased, I have thought proper to assure you, that I have no intention to prevent the free Egress and Regress of any Person to and from the Town, or of reducing it to the State of a Garrison, neither shall I suffer any under my command to injure the Person or Property of any of his Majestys Subjects — But as it is my duty, so it shall be my endeavor to preserve the peace, and to promote the happiness of every Individual; and I earnestly recommend to you, and every Inhabitant, to cultivate the same spirit — and heartily wish they may live quietly and happily in the Town.

THOMAS GAGE

#### ADVERTISEMENT.

As the appearance of the Small Pox in this Town has given rise to various Reports; the publick are hereby informed that last Monday Night the Selectmen were acquainted by a Surgeon of the Army, that five Children in a House occupied by a Soldier of the 59<sup>th</sup>. Regiment, were seized with that Disorder, all of whom were sent early the next morning to the Hospital at New Boston, as was a Soldier of the same Regiment the Day following — These are the only Persons in Town who have the Infection, and are all in a fair way of recovery. Upon a strict enquiry made thro' the Regiments, by order of the Governor, no one has been found among them that appears to have even the Symptons of that Distemper; the rumor that some Soldiers or their Children were to be inoculated is without foundation; such a measure having been forbid on pain of his Excellencies highest displeasure. It is supposed this disease was taken from a child brought from New York in one of the Transports, which died a fortnight ago; And the Publick may be assured that the greatest care has been taken to prevent a communication of the Infection.
